Reflective Wear

BANDS AND LEASHES

FOR PETS AND PEOPLE

REFLECT ON THIS...

Walking your dog at night or jogging at dusk can be risky business if you or your pet can't be seen by passing motorists. On a rainy or foggy day, it can be difficult for motorists to notice you with enough time and distance to safely yield.

Van-Glo Reflective Wear Bands and Leashes were invented with night time dog walkers and athletes in mind. It is an innovative product to be used by all pets and people wanting reliable day and night safety. Made with highly reflective, industrial grade material, you and your pet can be noticed from as far as 100 yards away. **Van-Glo Bands** come in sizes 8" to 25" to fit most pets and people and are also great for child safety. **Van-Glo Leashes** come in size Small and Large for all size pets. **You're Seen and Safe with Van-Glo!**
